

1993 KIWI STOOL

1993 KIWI BARSTOOL

OVERALL DIMENSIONS:

30 17 17 30 INCHES

DIMENSIONS ARE APPROXIMATE

COM YARDAGE:

1 yard for every 2 stools (based on no repeat, non-directional material)

SPECIFICATION:

- Steel column consists of 2" diameter, 16ga tube, welded to the bottom trumpet and the top plate. The bottom trumpet component consists of 17" diameter, 14ga steel, with an extra weight plate added for stability and 5 adjustable nylon glides. The top plate consists of a 7" x 7" – 3/16" thick steel plate, welded to the top of the column.
- Footrest is 15" diameter, 16ga steel tube, with three angled support bars welded to the column.
- Seat consists of 1/2" plywood, with 2" thick high-density foam that is CAL-117 FR compliant, dacron wrapping and upholstery, as specified. Seat comes with a welt on the top seam.
- Stool comes as a non-swivel, as a standard; A swivel mechanism can be added upon request (up-charged), which increases the overall seat height to 31" (from 30").
- Base comes in P77 Polished Chrome finish.
- Only Available in bar height
