PRODUCTS

40 YEARS

1976 - 2016

I am extremely proud to announce that ISA has entered its 40th year in business. A business that started at my family's kitchen table (literally) has evolved into the dynamic furniture company it is today.

Although the kitchen table was eventually replaced with a 90,000 square foot plant, I am pleased to say that our values and work ethic has remained the same. I would like to extend my gratitude to the ISA family during this journey; our success would not be possible without their dedication. I look forward to the next 40 years of supplying high quality designed products.

I would like to thank everyone for their continued support and business!

Kevin Sandler
