**SPECIFICATION:**

- Chair/Stool frame shall be constructed from 16 gauge square metal tubing  $\frac{7}{8}$ " x  $\frac{7}{8}$ ".
- Frame components are bent and welded together with 4 seat mounting tabs. The frame is then strengthened with an additional front, back and 2 side stretchers. Frames are available in any standard ISA metal finishes (powder coat and plated), at different price points.
- Bottoms of legs are capped with heavy duty nylon plug glides suitable for most flooring types.
- Shells consist of  $\frac{3}{8}$ " thick laminated beech plywood, which is high-frequency bent into shape. Surface veneers are hand-made and are integrally incorporated into the bending process

- Shell is stained in any standard ISA wood finishes, and then given a clear coat for added durability.
- Shells can be custom made in any plastic laminate, upon request.
- Shell comes with standard hand hole.
- Additional options available for this series: upholstered seat pad.
- Stool also available in counter height (24" seat height)
