## SPECIFICATION:

- Chairs and barstool frames shall be constructed from solid kiln dried beech-wood. Lumber to be dried to a final moisture content level between 6% - 8%.
- The frames shall be connected together by dowels, corner blocks, screws and glue.
- Glue and dowels shall connect the curved side stretchers from the front legs to back legs.
- The stool shall have a metal stretcher between all legs (1 ¼" H x 3/16" thick) finished in Polished Chrome (P77). The stretcher is attached to the inside of the legs via screws.
- The seat shall be of webbed construction. Foam shall be high-density CAL 117 FR. Upholstery is applied as specified.
- All exposed wood can be finished in any standard ISA wood finish. Frames shall receive a clear urethane top coat in low gloss for added protection.
- Back and seat upholstery shall be stapled to the frame. Seats are foam with dacron fill and all seats are tight upholstery style.
- Barstool is also available in Counter height (24" seat height).
