SPECIFICATION:

- All frames to be constructed from solid kiln dried beech wood. Lumber to be dried to a final moisture content level between 6% - 8%.
- The frame components are connected together by dowels, corner blocks, screws and glue. Stretchers are connected on the side chair and bar stool via mortise and tenon.
- The bar stool features a front stretcher, covered in a metal footrest that can be finished in Black, Brass or Satin Aluminum.
- Seat to be of webbed construction. Foam on all items is high density CAL 117 FR. Upholstery is applied as specified, with multiple fabric applications available upon request.
- Back and seat upholstery to be of a pull over method stapled to the frame. Cushions are high-density foam with fill and upholstery, all cushions are tight upholstery.
- All frames are finished in any standard ISA wood finish, and receive a clear lacquer urethane coat with low-sheen finish for added durability.
- Bar stool also available in counter height (24" seat height).
