DIMENSIONS ARE APPROXIMATE

SPECIFICATION:

- The bottom plate is ½" thick steel with tapped holes for 5 adjustable nylon glides on underside to allow for leveling on uneven floors.
- Accent ring on bottom plate is 8" diameter, ¼" thick steel plate. Finished to match base as standard. Also available as a contrasting accent ring in P38 Black, P70 Satin brass, P75 Antique Brass
- 18" and 24" spreads: A 4" diameter 14 gauge metal column with a 2" radius steel dome cap is welded to a 2" diameter upper column. The steel top mounting plate spread is an 11"x11". The top plate is mechanically attached to the column via screws.
- 30" spreads: A 5" diameter 14 gauge metal column with a 2" radius steel dome cap is welded to a 3" diameter upper column. The steel top mounting plate spread is an 18"x18". The top plate is mechanically attached to the column via screws.
- The column segment heights are:
 - Dining height: 13" lower column and dome / 13.5" upper column
 - Bar height: 22.5" lower column and dome / 16.5" upper column
- Finishes are available in any ISA International standard powder coat and plated options. Pricing varies based on finish selection
- Base spread sizes and the tops that can be used with them are as follows:
 - 18" dia. spread for top 24"-30"
 - 24" dia. spread for top 30"-36"
 - 30" dia. spread for top 36" -54"
- Also available in bar height
