

1150 AUBURN STOOL

OVERALL DIMENSIONS:

YARDAGE:

COM: 0.75 yard for every 02 stools (based on no repeat, non-directional material).

DIMENSIONS ARE APPROXIMATE

SPECIFICATION:

- Barstool frame to be constructed from solid kiln dried maple. Lumber to be dried to a final moisture content between 6% - 8%.
- Legs to be constructed from single stock lumber. Front and rear legs are attached by solid maple stretchers double side stretchers and single front and back stretchers. Front stretcher included a metal footrest finished in Black, Brass or Satin Aluminum.
- Stretchers are dowelled and glued to legs.
- Seats are 3/8" thick laminated plywood, which is high frequency bent. Wood veneers are integrally incorporated into the bending process.
- All exposed wood is finished in any standard ISA wood finish and given a final coating of catalyzed lacquer for a durable finish.
- Seat pad is 2" thick high-density foam, meeting CAL-117 FR. Upholstery is applied as specified.
- Seat is screwed and glued to frame.
- Includes nail-in nylon glides suitable for most flooring types.
- Also available in counter height at 24" seat height.
