

1900 CITY BASE

OVERALL DIMENSIONS

-DINING HEIGHT: 28.5"

-BAR HEIGHT: 41.5"

-AVAILABLE SPREADS: 17" DIA / 22" DIA / 30" DIA

DIMENSIONS ARE APPROXIMATE

SPECIFICATION:

- All bases start with a bottom round disk piece that is cast iron and is available in various diameters; all cast pieces have adjustable glides in them to allow leveling on uneven floors.
- A 3" diameter 14 gauge metal column connects with a cast metal top mounting plate via a continuous threaded rod that is mounted to the base via bolt. On the 30" diameter spread, the column is 4" diameter. The top mounting plate is 10" dia. (for the 17" dia and 22" dia. base spreads) and 18" dia. (for the 30" dia. base spread).
- Base is available in any standard ISA powder coat finish, and also in P77 Polished Chrome and P60 Satin Chrome plated finishes. Prices vary based on finish.
- Base spread sizes and the tops that can be used with them are as follows:
 - 17" dia. spread, for top 18"-24"
 - 22" dia. spread, for top 30"-36"
 - 30" dia. spread, for top 48"-54"
- Also available in custom heights, upon request. Upcharges may apply.
- Also available with flip top mechanism at an additional charge. Flip top mechanism may affect overall table height by up to 1"
- Columns can be customized to be covered with a wood/laminate veneer.
