

2000 BISTRO T BASE

OVERALL DIMENSIONS

-DINING HEIGHT: 28"

-BAR HEIGHT: 40.5"

-AVAILABLE SPREADS:
22" T BASE

DIMENSIONS ARE APPROXIMATE

SPECIFICATION:

- Bases start with a bottom cross style piece that is cast iron with a wall thickness of no less than 1/8". All cast pieces have adjustable glides to allow leveling on uneven floors. Cross piece consists of a radius profile that does not have any sharp corners, each leg prong is 2" wide by 1 ½ "high.
- A 3" diameter 14 gauge metal column is used for the 22T spread. The column is attached to the top and base via top mounting plate and a continuous threaded rod that is mounted and fastened via bolt. The top mounting plate spread is 10" x 10".
- Available in P38 Black, P77 Polished Chrome or P60 Satin chrome.
- General guidelines on base spread sizes and the tops (wood, laminate, solid surface) that can be used with them are as follows:
 - 22T base: suitable for rectangular tables no more than 30"W. Suitable for ADA application on tops that are no smaller than 30 x 48.

**This base is not recommended for stone/granite/quartz tops due to their weight.*

- Available in custom heights upon request. Upcharges for customization apply.
- Also available with flip top mechanism at an additional charge. Flip top mechanism may affect overall table height by up to 1"
- Available with customized columns that can be covered in a wood/laminate veneer. Upcharges apply.
