DIMENSIONS ARE APPROXIMATE

SPECIFICATION:

- All bases start with a bottom round/square piece that is cast iron and is available in various sizes; all cast pieces have adjustable glides in them to allow leveling on uneven floors.
- A continuous threaded rod that is mounted to the base via bolt is included. The top mounting plate is 10" x 10"; the finished height of the base is 28 1/2" when fully assembled.
- The bottom plate finish is P38 Black Epoxy (semi-gloss) powder coating.
- All columns are made from various pieces of solid wood glued together to form a balanced solid structure to prevent cracking.
- Solid wood column is made from solid Maple, kiln dried to a final moisture content between 6% - 8% and stained in any standard ISA wood finish.
- Base spread sizes and the tops that can be used with them are as follows.
 - 18" dia. & 18" x 18", for top 18"-30"
 - 24" dia. & 24" x 24", for top 30"-36"
