SPECIFICATION:

- Chair frame to be constructed from 5/8" DIA 16 gauge furniture grade steel with a chrome finish.
- The shell is injection molded polypropylene copolymer with UV light stable color protection and FR treatment. The surface has an anti-slip grain.
- The shell is structural polyurethane with no inner metallic structure. It is a high density material (600-700 Kg/m3) which enables to make many shapes with very thin profiles.
- The shell consists is high shock and scratch resistant.
- The metal legs are pressure fitted onto the shells molded in place posts into stainless steel fittings on the base and can withstand up to 400 lbs.
- Floor contact points are nylon glides.
