

## 1663-DB TRUFFLE STOOL

---

### OVERALL DIMENSIONS:

DIMENSIONS ARE APPROXIMATE

### YARDAGE:

COM: 3 YARDS EACH (based on plain, non-directional, no repeat textile)

---

### SPECIFICATION:

- The back is constructed of ½” thick bent plywood and received 1” thick foam on the inside and outside back faces. Decorative channeling is applied in the upholstery. Channeling spacing is 3” o/c.
- The seat consists of a ½” thick plywood piece and 3 ½” thick high-density foam. It is then wrapped in dacron and upholstered as specified, for an overall thickness of 4”. All foam is CAL 117 FR foam. The finished seat is then screwed onto the base via a swivel mechanism and welded metal plate.
- Includes a return-swivel under the seat as a standard.
- Disc base frame consists of a ½” thick solid metal bottom plate, covered with a round 16-gauge furniture grade steel cover. The column is 3” diameter 14-gauge metal with a 7” x 7” metal top mounting plate. Base includes a 16” diameter welded foot ring, located 12” from the floor.
- DB base has concealed adjustable nylon glides to allow for leveling on uneven floors.
- The frame is available in any ISA standard powder coat or plated metal finishes.
- Also available in counter height (24” SH).
