

## 497 ELGIN ARM STACK

---

### OVERALL DIMENSIONS:

### YARDAGE:

COM: (2.5 yards for every 2 chairs – based on plain, non-directional, no repeat textile)

\*DIMENSIONS ARE APPROXIMATE

### SPECIFICATION:

- Chair is constructed from reinforced steel tubing. It is available in select Durawood grain finish, and/or solid powder coat finishes.
- Frame is built of rectangular steel tube. Tube is 1 ½" x 1 ½" at the thickest portions, tapering down to 1" x 1" at the bottom of the legs. Tube is 1" x 1" around the back portion.
- Seat and Back consist of plywood panels, which receive high-density foam and upholstery, as specified.
- High-density foam meets CAL-117 and is applied on seat cushion and back. Seat foam is 2" thick. Inside Back foam is ¾" thick. Outside Back foam is ½" thick.
- Back has a built-in handle at top.
- Bottom legs are capped with black force-fit nylon glide.
- Stacks 5 chairs high.
